

Multifunctional brush

For natural and artificial turf.

Multifunctional brush

For brushing in sand and granulate, straightening turf fibers, and leveling the surface.

The TERRA GROOM multifunctional brush is optionally available with a rear 3-point hitch for tractors or with bogey wheels and drawbar for attachment to utility vehicles. The bogey is lifted electrically. The TERRA GROOM consistently brushes sand into natural turf for better playability. On artificial turf, the TERRA GROOM is used to brush in granulate and straighten up the turf fibers. The infill material separates the fibers, which helps to absorb impacts and reduces the risk of injuries. The multifunctional brush consists of three rows of special brushes. Two rows are straight and one row is mounted in zigzag alignment, allowing an optimal longitudinal and transverse distribution of different material such as granulates, sand, etc. The brushes can be rotated in order to achieve uniform wear. You can choose black brushes for natural and artificial turf or white, softer brushes for especially fine turf such as golf greens. The TERRA GROOM is easy to pull because of its low weight of only 198 pounds.

Accessories (option):

Stiffer yellow bristle brushes, magnet strip for collecting dangerous metal objects, and ball hitch attachment are available.

Black brushes for use on natural and artificial turf

White brushes for especially fine turf such as golf greens

Magnet strip for collecting metal objects

Granulate loosening brush for artificial turf

TECHNICAL DATA

Working width in approximate inches:	74
Transport width in approximate inches:	74
Length in approximate inches (trailed version):	82
Height in approximate inches:	24
Mounting:	rear 3-point hitch cat I or trailed with bogey wheels
Bogey tires:	13 x 5.00
Bogey lifting:	electric (12 V)
Weight of 3-point mounting in approximate pounds:	198
Weight of trailed with bogey wheels in approximate pounds:	260

Descriptions and illustrations are not binding. Changes in design and execution are possible.
